

## Walnut Canyon National Monument Vegetation Map Class for Ponderosa Pine Mixed Graminoid Woodland Complex

The map class "[Ponderosa Pine Mixed Graminoid Woodland Complex](#)" is composed of the following vegetation associations, each described separately:

- [Pinus ponderosa / Bouteloua gracilis Woodland](#)
- [Pinus ponderosa / Muhlenbergia montana Woodland](#)

This type is best developed north of Walnut Canyon and west of the Monument access road. Smaller examples of this type also occur on the west side of the project area south of the canyon.
